

Fire Safety And Evacuation

Course length: 1 hour*

Course Code: 103080BT014

This course gives you the skills to reduce the risk of fire in the workplace, and deal with it effectively should it occur.

Benefits for the Learner

Fire poses the biggest single risk to human life in the workplace. You owe it to yourself to understand ways to reduce the risk of fire, how and when to tackle different fires and how to escape safely from your workplace should fire break out.

This course deals with all three of these vital issues. It gives you a range of techniques to cope if the worst should happen – skills that could literally be the difference between life and death.

Benefits for the Business

Modern Fire Regulations place stringent responsibilities upon employers to prevent fires in the workplace and promote the safe evacuation of staff in the event of a fire.

By enrolling your staff on this course, you'll enable them to play a more active and informed role in the implementation of fire safety procedures.

What Does the Course Cover?

- The responsibilities of employers and employees for fire safety

Fire safety in respect of:

- Flammable substances
- Electricity
- Smoking
- Housekeeping
- Fire doors
- Fighting a fire, including the correct use of fire extinguishers
- Safe evacuation procedures
