

# Dangerous Substances

**Course length:** 45 mins\*

**Course Code:** 103082BT008

**This course gives you an overview of what dangerous substances are and how you can work safely with them.**

## Benefits for the Learner

Many of us come into contact with potentially dangerous substances in our daily work and we are often unaware of the risks involved in using them.

This course will help you to answer the questions you might have about working with dangerous substances. Is there a safer alternative? What precautions you should be taking? What types of injuries could a particular substance cause? Do you need to use protective equipment?

## Benefits for the Business

This course will enable you to create a safer working environment for those employees who are required to use dangerous substances in the course of their work.

In just 45 minutes, the course will help your staff to increase their awareness of potential health hazards and understand the preventative measures they must take to avoid harmful exposure.

## What You Get From This Course

Having completed this course, you will be able to:

- Recognise what a dangerous substance is
- Be aware of the potential risks to your health associated with different substances
- Understand how dangerous substances enter the body
- Take steps to avoid exposure
- Implement appropriate control measures

## How Long Does the Course Take?

You can work through this course at your own pace. It should take you around 45 minutes to complete.

\*Courses are accessible for six months from the date of purchase.
