

Induction Essentials

Course length: 1 hour*

Course Code: 103082BT011

Benefits for the Learner

Health and Safety legislation is designed to keep you safe at work. This course gives you a good overview of the key health and safety issues that affect you and the part that you can play in improving health and safety in your workplace.

You'll learn how and why different kinds of accidents happen, explore the financial and emotional costs of accidents and understand the roles you and your employer both play in promoting health and safety at work.

Benefits for the Business

Each year, over 1 million injuries and 2.3 million cases of ill-health are experienced by workers; around 40 million working days are lost to business; and over 25 000 individuals are forced to give up work because of injury or ill health. Good health and safety is good for your business!

This course is an excellent first step in ensuring your employees understand the importance of effective health and safety practice. It outlines their responsibilities, your responsibilities and how employers and employees must work together to minimise risk.

What You Get From This Course

Having completed this course, you will be able to:

- Understand why Health and Safety legislation exists
- Know how accidents occur and the costs they incur
- Understand the importance of risk assessment
- Explain how Health and Safety regulations are enforced
- Understand the roles and responsibilities of employer and employee

How Long Does the Course Take?

You can work through this course at your own pace. It should take you around 40 minutes to complete.

*Courses are accessible for six months from the date of purchase.
